Now, the humility is all in the air,  
And the pride is all dead.  
Now, the simplicity is all in the air,  
And the complexity is all dead.  
Now, the plainness is all in the air,  
And the ornamentation is all dead.  
Now, the plainness is all in the air,  
And the ornamentation is all dead.

The election for State Librarian will take place to-morrow. It has for a number of years been conceded that this is a woman's office, and, therefore, the fight is among the ladies only.

The great body of Mormons come from England, Scotland, Wales, Denmark, Sweden and Norway. England has supplied round numbers, 20,000 of them; Scotland, 3,200; Wales, 2,400; Sweden, 3,750; Denmark, 7,791; Norway, 1,200; Ireland, 1,600. About the character of the British and Danish contributions there is very little doubt—both the men and the women belong to a low, ignorant, peasant class. The same thing is true, though probably in a less degree, of the Scandinavian contribution.

## Concerning the Bar Meeting.

MAZEVILLE, Ky., January 10, 1884.  
Editor Bulletin: Referring to the bar meeting held in this city on the 2d inst., the writer of a local in your issue of last Monday is at some pains to say that "several young attorneys who had participated in the meeting" have since been circulating "a petition protesting against the action of the bar, and endeavoring to influence our representative and get him to oppose the legislation" asked for by all of the senior and most of the junior members of the bar in this city, but since our courts were not created for the special benefit of "all of the senior and most of the junior members of the bar," it seems somewhat strange to the writer here that complaint should be made against the "several young attorneys," who thus are attempting to influence our representative "by an appeal to the law making power, through the sacred and constitutional right of petition, and that should be made the subject of a local because, forsooth, they afford others besides "all the senior and most of the junior members of the bar" the opportunity to be heard upon a question which so nearly concerns business men of this town and county, nor is his amazement by your announcement that such a question is not your "fight." Surely, Mr. Editor, any "fight" is yours which affects the interests of the community and tax payer of your county, and if your purpose was not to attack the "several young attorneys," but to assist in an effort to rid our people of a useless expense and trouble, then just as surely you should make it your "fight," and show to your readers how they can "well dispense with the cost of having the grand and petit jurors assemble four times per year," as you say. The average mind will, however, find it difficult to understand how this can be done when it is remembered that our jurors are paid by the day for their services, and if they be needed for a given number of days in each year it can make little difference in the cost whether their labor is divided into four terms, or whether they perform the whole thereof at one term. There is just so much business to be done, and when the jurors have attended to it, they are discharged. Our Judge is paid a certain salary per year, whether our terms be four or one. Our Clerks and Sheriffs receive pay for what they do. Why, then, should a change be made? How can it be to our interest to do so? The writer can think of no one person to be benefited thereby, and that person is our worthy jailer. Instead of emptying our jail four times a year as we now do, we would let the prisoners change be made, have to board our prisoners from October to April. The writer has not the figures at hand but his information is that our late excellent Senator and worthy representative, Hon. James Shackelford and R. A. Cochran, investigated the matter very fully before the passage of the law now existing and found our present arrangement greatly to the interest of our people as an economic measure. They may not "let good enough alone?"

## FOREIGN NEWS.

REPRESSOR PROMOTED, WITH A STING AT TACED.

CAIRO, Jan. 10.—The Egyptian Ministry has ordered the troops under the command of Zeebier Pasha not to enter the Sudan, and has also stopped recruiting black troops under him. After having been virtually a state prisoner, with a certain limited amount of freedom, for the past ten years, Zeebier Pasha has, since the late crisis, after some hesitation, been appointed to the command of the black contingent of the Sudan expeditionary force. With characteristic caution, however, his wife and family were to have been detained at Cairo to serve as some sort of hostages to insure his good behavior, much as he himself was formerly kept at a gunpoint for his son. A few days ago it was discovered he had sent his wife secretly to Shakin. As soon as this discovery was made, Zeebier was arrested, but at the very next day, and was kept under surveillance. It is said the Ministry will relieve Zeebier Pasha of the command, and send a different talisman in the dealings with internal affairs from the one in vogue under the former Ministry, which was largely betrayal and alienation of the tribes of Sudan by elaborate bribery and force.

## REMARKS INQUIRING AS TO JOKE.

BREMER, Jan. 10.—Prince Bismarck has declared that he does not see the difficulty in the maritime provisions of Germany whether the necessary business interests of the provinces exempt them from the prohibitions now in relation to American ports. Similar inquiries will be made at Bremen and Hamburg. It is thought the result will be a modification of the law, so as to admit American ports, if found free of taint after having been inspected by the Government inspectors.

## AT LAST A BATTLE.

PARIS, Jan. 10.—A dispatch received here says that General Biche, while on a reconnoitering expedition, advanced ten miles beyond Sontay, and that he found the country clear to Hung-bou had been abandoned. The Austrians are flocking hither. It is asserted that the garrison at Bue-Nin is purely Chinese, and that a number of rifles were found at Sontay with the Austrians, and on them. A number of papers have also been found at Hse and Sontay, compromising the Chinese officials at both these places. Two thousand Austrians attacked a French post near Hanoi on December 28, but were repulsed by fifty marines with a loss of forty killed and sixty wounded. The French casualties numbered fifty. The French troops under Colonel Brionval have routed the principal bands in the Nam-Dinh province.

## TASTE OF WAR'S HORRORS.

CONSTANTINOPLE, Jan. 10.—It is reported that Abyssinian troops have taken and sacked the town of Kesan, slaughtering the Egyptians who defended it. Three Arabian officers have been arrested, and evidence establishing the connection of others with the affair in possession of the authorities. An outbreak is feared.

## THEY MAY ABANDON HOPE.

ST. PETERSBURG, Jan. 10.—Thirty-seven students of the Moscow University have been arrested on a charge of complicity in the nihilist conspiracy, which was revealed by papers found in the house of the late Lieutenant Colonel Suderkin.

## STILL A SLAVEHOLDER.

A Mountaineer Offers Two Study Negroes for Sale.

BALTIMORE, Jan. 10.—A correspondent of the Baltimore American, from Staunton, Va., gives the following particulars of a remarkable scene in the streets of Staunton. A strange reminder of the anti-slavery struggle was witnessed a short time ago in the busy streets of the peaceful City of Staunton, in the Valley of Virginia. A sturdy mountaineer, from Fincastle County, Va., had made his way from his secluded fastness in an outlying district across the Cheat and Allegheny Mountains, 150 miles to the nearest center of civilization, to make sale of some stock, the fluctuations in whose value once sent a shudder through the commercial world. In the high and isolated eyrie life, he had not heard of "war's alarms," and he was not prepared to enter into the "season" had disturbed the peaceful routine of his life. He had tended his flocks, cultivated the soil and prospered, until the war had broken his consumption. Reckoned among the wealth that could be disposed of, as no longer necessary for his support, he had been driven to the city, and it was more particularly to sell them that he had gotten the consent of his mind to make the journey to the nearest point within the pale of civilization. What he asked for a slave trader with whom he could bargain, him looked curiously at each other for an explanation of this peculiar form of madness. But the old farmer was resolute in his determination to sell what was his own, and repudiated the suggestion that he was a crank. After a slight hush in the talk the younger generation of the crowd, seeing the futility of their efforts to make the old fellow comprehend the changed order of things, determined to have some fun. Some expert, who had once stood on the block and glibly given the points of interest and genealogy of many such an animal, was hunted up, and prepared to give the service for an auctioneer. The teeth, eyes, limbs, etc., were examined critically, and offers made in cash, none of which, however, satisfied the old man. He declared that they had been reared with the utmost care, and that none seemed to enjoy the fun more than the colored portion of the crowd, the dullest element of which joined in the best of the old man's stupidity. But the merriment of the crowd made no impression on the old man's determination. He made his way in disgust out of the town on the pike leading back to his home, conscious, no doubt, of his superiority in wealth and power over the jesting crowd, which followed him. When last seen he and his dusky progeny were on their way to the city to enjoy a life free from the vice of an unrel civilization.

## Mrs. Langley Injuncted.

New York, Jan. 10.—Judge Ingraham of the Superior Court, yesterday granted a preliminary injunction against Mrs. Langley, on the part of Bartley Campbell, for a violation of Campbell's proprietary right in the title of the play entitled "Fertile," now being produced at the Fifth Avenue Theatre. The order was made returnable Saturday next, when a motion to make the injunction permanent will be argued.

# THE DAILY BULLETIN.

FRIDAY EVENING, JAN. 11, 1884.

**ROSSER & MCARTHY,**  
Publishers and Proprietors.  
No. 1000 ADAMS STREET, CHICAGO.

**RING OUT FALSE PLEAS IN PLACE AND BLOOD,**  
Theological slides and the apoplexy  
Ring in the common love of good,  
Ring in the love of truth and right.  
Ring out the devil's lying,  
The ancient forms of party strife,  
With sweeter manners, purer laws,  
Ring in the noble modes of life.

Ice about four inches thick was put up by the ice men this week.

Mr. CHARLES CALVERT's store at Helena Station, was destroyed by fire on the night of the 8th inst. Nothing was saved.

A TELEGRAM was received in Mayville, this morning, stating that Mrs. Mary E. Wheatley, of Mayville, is at the point of death. She is the mother of Mr. Thos. Wheatley, late of this city.

THERE was some discussion last night at the council meeting concerning the bill presented by John Carmichael, as Assessor, but it managed to scratch through finally and was declared sufficient.

A PROTRACTED meeting will begin at the Baptist Church on Sunday next. Preaching in the morning and evening and every evening during the ensuing week. The meeting will be conducted by Rev. H. Allan Tupper, of Harrodsburg, and Rev. W. T. Jolly, of Mayville. All are cordially invited to attend.

Oil of wintergreen mixed with an equal quantity of olive oil or soap liniment and applied externally to joints affected with rheumatism, is said to afford instant relief. At all events it is a cheap experiment, and there is nothing offensive in the smell of the mixture, and this is as good a time as any to try it.

At a meeting of Haucke's Reed and Brass Band, held Thursday evening, the following officers were elected to serve during the ensuing year:

President—Joseph Lowry,  
Secretary and Treasurer—John Mathews,  
Manager—J. W. Tudor,  
Overseer of Music—J. Cole,  
First Leader—Phil Jolly,  
Second Leader—John Mathews,  
Janitor—Anthony Ray.

Death of James N. Morrison.  
Mr. James N. Morrison, who has been ill for several months past, died on Thursday afternoon at two o'clock at his home, near this city, in the seventy-fifth year of his age. The funeral will take place this afternoon at half past two o'clock from the residence, after services by Dr. J. A. Henderson. Friends who desire to attend to attend the funeral should notify Mr. Ed. Myall, who will send carriages for them.

The death of Mr. Morrison will quiet the title to a large portion of real estate, once belonging to his late father, James Morrison. At the death of the latter, his estate was left in equal shares to two of his children, James N. Morrison and his sister, if either of whom died without issue living, it went to the survivor, and if both died without issue, it was devised over to certain collateral heirs. The sister died soon after marriage without leaving issue, and James N. Morrison, who afterwards married and had children, took all the estate. He now leaves living issue, and the titles of the estate is believed to be now good in his vendees, the devise over to collaterals being defeated by the survivorship of his children.

**Sales of Land.**

**Religious Meeting To-Night.**  
Services at the Methodist Episcopal church to-night. Speakers, Revs. S. B. Alderson, J. T. Hendrick and Mr. G. S. Judd. Intercession for the nations; for national rulers and all in authority; for the enactment of just laws and the removal of such as are favorable to vice, cruelty and unpopularity; for the prevention of war, and for deliverance from the plots of wicked men; for the cultivation of mutual respect, forbearance and good will; that the spirit of infidelity and lawlessness may be subdued; for the spread of wholesome literature and the counteraction of immoral propaganda; that the opium trade may be abolished; for a continued blessing on the efforts made to promote temperance and social purity, and for the devout observance of the Lord's day. 1 Tim. 2: 1-8; Psalm 57.

Who is the Prettiest Girl in America? Is a question that would perplex a congress of connoisseurs assembled to nominate the most beautiful. But such an assemblage would not be surprised to learn, that the most charming of their sex, on this side of the Atlantic, is the beauty and prettiest girl in America, of their teeth with Soodonin, since everybody knows, that the ladies prefer it to any and all dentifrices. Let no man say after this, that women lack judgment.

The Soot Oblivion would long since have swallowed up Soodonin in common with so many forgotten tooth pastes and dentifrices, did not the experience of a whole nation prove that it possesses signal advantages. It thoroughly cleans the teeth, dissolving and removing their impurities; it revives their fading whiteness and strengthens their relaxing hold upon their sockets; it renders colorless, discolored gums hard and healthy; and besides neutralizing an unsavory breath, insensates it with its own fragrance.

**DEED.**  
Died at her mother's residence, in East Mayville, on Tuesday, January 8th, Miss Ida Sticker, aged twenty-five years.  
She has passed away from the sorrows of life whose sufferings have been so great and so long, and who has calmly resigned that "her lot is her gain." For many years she has been afflicted with consumption, and her sufferings have been most agonizing and constant. She was a most devoted and affectionate mother, and a most faithful and efficient worker in the cause of temperance and morality. She died at length with firm faith in the once crucified and now risen and exalted Saviour, her spirit winging its flight while her pastor was engaged in religious exercises at her bedside.

# A MOST REMARKABLE ACCIDENT

A Locomotive Snow Ram Dashes Among a Gang of Laborers.

PITTSBURGH, Jan. 10.—A distressing and inhuman accident occurred here between a locomotive and a gang of laborers at the Pennsylvania Railroad station, about eight miles from Pittsburgh. A gang of men were at work near the station, shoveling snow from the tracks, when a locomotive proceeded. A large snow pile dashed into the gang of men. The result was fatal. Seven men were taken up terribly injured. Two of them died while being taken to the city, and a third expired shortly after reaching the West Pennsylvania Hospital. The others are now lying in the hospital in a precarious condition, but one of them remaining unconscious. The gang was composed of Italians and Germans, who had never before worked on a railroad, and who were only employed in an emergency to clear away snow from the tracks. There is a sharp curve in the track where they were working and they did not notice the approach of the train, the engine of which was drenched by the deep snow. The train was not running at the usual rate of speed, but owing to the curve and darkness the engineer did not see the men in time to stop. Three of the men will probably recover.

## MARKETS BY TELEGRAPH.

**Financial.**  
New York, Jan. 10.—Money loaned at 1 1/2 per cent. The stock market, with the exception of a slight interval of weakness, thereby after opening, was strong and advanced steadily on the advance to the close, when prices were at about the best of the day. The advance was well distributed and nearly every stock on the list participated, but the greatest improvement was in Midwestern Central. The strength and improvement in the stock was attributed to buying by Vanderbilt. Union Pacific was another feature of the dealings and was steadily supported. The buying of this stock was said to be for the account of some large operators and Boston parties. The strength and sharp advance in these shares had the effect of causing a stampede among the bears, who, fearing a squeeze, began to cover, while offerings were less frequent. As a consequence the list, with few exceptions, was strong, and closed, aside from the two stocks named, 1/2 to 2 per cent higher. The strength of the entire market, it is said, is mainly due to the support on the part of a clique of large operators formed for the purpose.
